

## 47 Years of IRMAC!

From a small group who started to get together in 1971 as the "Data Base Users Group", to the incorporation of the Data Base Association (Ontario) Inc, to our beloved "IRMAC", the Information Resource Management Association of Canada, no matter what we are called, we are data professionals helping other data professionals meet our personal and career objectives.

As we move towards almost a half-century of IRMAC, it's time to reflect on where we have been, and more importantly, where we are going.

IRMAC is and has always been a community. It's strength lies in the willingness and abilities of its membership, and the drive to learn and share information about all facets of the data world.

Over the next few years, members have an exciting opportunity to shape how IRMAC will support our and elevate our profession –  
***we hope you will join us!***

## WHO WE ARE

### ABOUT US

The **Information Resource Management Association of Canada** is a non-profit, vendor independent association of information management and business professionals.

Our primary objective is to provide a forum for members to exchange information, experiences and promote the understanding, development and practice of managing information and data as a key enterprise asset.

### CONTACT US
